## Acquisition Cost Report

**Item details:** A freeform style mans ring by Marcial de Gomar, "Skull and Bones", featuring a 4.37ct emerald cut emerald accented with flush set round cut diamonds and 2 pear shape emeralds set in 18KT green gold. Marcial de Gomar logo stamped inside shank.

**Comments:** The beauty of Colombian emeralds, their extraordinary color and crystallization, is unique since their formation process occurred in a different geological environment than all other known emerald deposits. Natural emeralds of the size and quality found in the ring described in this Report are rare. We have attempted to represent the jewelry as accurately as possible in the photo; however, slight variations in color are inevitable.
